

The Primary Care  
Rheumatology and  
Musculoskeletal  
Medicine Society

### **Welcome to the new PCRMM President**

My name is Lucy Douglas and I was recently elected President of the PCRMM.

I have been a PCRMM member for some years and am truly honoured to have been elected to represent the Society.

I follow in the footsteps of some great and inspirational predecessors and I will endeavour to continue their good work. I believe primary care is the cornerstone of good, equitable, cost effective, holistic, and efficient health care.

Musculoskeletal problems will affect all of us at some point in our lives, and it's therefore vitally important that primary health care providers have the expertise and resources to diagnose and manage such conditions.

As President, I would encourage all those health care providers passionate about helping everyone, young and old, to optimise their musculoskeletal health, in order to lead more fulfilling and productive lives, to join our friendly and progressive society.
